NATIONAL JOURNAL OF COMPUTER SCIENCE & TECHNOLOGY

Volume:4 | Issue:1 | January - June 2012

Sarva Vidyalaya's:

SV - ACRID

S. V. Institute of Computer Studies, Kadi.

AIM & SCOPE

National Journal of Computer Science and Technology (NJCST) is aimed to provide platform to the researchers, developers, industry experts, academicians and authors interested in state-of-the-art and state-of-the-practice activities and to publish their research-based papers, articles and case reviews on various topics of current concern on Computer Science and Technology.

CALL FOR PAPERS

We invite unpublished, original theoretical or empirical research papers, review papers, case studies from researchers/developers/industry experts/academicians for publication in National Journal of Computer Science and Technology (NJCST) in IEEE format to Editor-in-Chief round the year. Authors are required to follow the submission guideline in IEEE format available at www.svics.ac.in

INFORMATION TO AUTHORS

1. The author should send three hard copies and one CD of strictly black and white manuscript/paper, using Microsoft Word Software Package in prescribed IEEE format.
2. Papers are accepted for review with the understanding that the same work has been neither submitted nor published elsewhere.
3. The Editor-in-Chief reserves all rights to modify and otherwise improve the manuscripts to meet the journal's standards of contents, presentation & style. The material once published in NJCST should not be reproduced or reprinted, either in full or in part without prior written permission from Editor-in-Chief.

REVIEW PROCESS

The Editorial committee first evaluates all manuscripts. It is rare, but it is entirely feasible for an exceptional manuscript to be accepted at this stage. Those rejected at this stage may not be up to the mark or are outside the aims and scope of the journal will not be sent to the reviewer panel for review process. The manuscripts that meet the minimum criteria are reviewed by at least two referees. Positive recommendations of the referees and board of editors for the manuscript will be considered for the publication. The review process usually takes 2 to 3 months.
